

SHANTHI PRASAD

SENIOR QA ENGINEER

Dubai Investment Park, Dubai, UAE | +971 - 503405231 | shanthiprasad.pulickal@gmail.com
<https://www.linkedin.com/in/shanthi-prasad/>

SUMMARY

Detail-oriented and ISTQB-certified Senior QA Engineer with 6 years of experience in software testing, quality assurance and defect management for embedded systems and cross-platform applications in automotive and mobility industry. Proven ability to collaborate with global cross functional teams to to ensure high-quality releases. Seeking a challenging position to leverage skills and knowledge to contribute to team success.

TECHNICAL SKILLS

Functional Testing	Verification & Validation	JIRA	Eclipse IDE
UAT Testing	SDLC (Agile) & STLC	Mantis	Selenium
API Testing	Requirement analysis	Jenkins	Java
Mobile and Web application Testing	Traceability	Matlab	GIT

PROFESSIONAL EXPERIENCE

Quality Assurance Tester | Selfdrive Mobility, Dubai, UAE Oct 2024 - Present

- Executed end-to-end testing for a car rental application across Android, iOS, and Web platforms, improving overall product stability and contributing to a 30% reduction in post-release defects.
- Tested Passenger Service System (PSS)-like modules, including reservation management, booking workflows, transaction processing, and customer profile management, ensuring accurate and reliable high-volume booking operations.
- Designed, reviewed, and executed 300+ test cases for booking engines, payment gateways, booking confirmations, cancellations, and customer dashboards, increasing functional **test coverage** and minimizing critical defects.
- Performed **Functional** Testing, **Regression** Testing, **Smoke** Testing, and **User Acceptance Testing** (UAT) in alignment with business and stakeholder requirements, supporting on-time and high-quality releases.
- Ensured quality and reliability of **SIA**, UAE’s first web based **AI booking engine**, by validating intelligent booking flows, pricing accuracy, and customer journey enhancements.
- Logged, tracked, and managed 200+ defects using **Mantis**, working closely with development teams to ensure timely resolution and conducting root cause analysis to improve defect turnaround time by ~20%.
- Strengthened automation readiness by learning Java fundamentals and Selenium WebDriver, supporting future automation initiatives.
- Gained hands-on experience in **API** testing using Postman, validating request/response payloads, status codes, and backend integrations to improve end-to-end system coverage.

Deputed at Mercedes Benz Research and Development Bangalore, India

- Led the design and execution of end-to-end test strategies for infotainment and automotive software, achieving 90%+ functional and integration test coverage and reducing production risk.
- Developed and maintained comprehensive test artifacts including test cases, **test coverage** reports, **defect density** reports, and quality compliance assessments, enabling data-driven release decisions by stakeholders.
- Performed Model-in-the-Loop (MIL), Software-in-the-Loop (SIL), **functional**, and **regression** testing on MATLAB/Simulink models to validate software enhancements and ensure product stability and standards compliance.
- Performed test case reviews, **defect triage**, and **root cause analysis** in collaboration with cross-functional teams, improving defect leakage prevention and supporting on-time, high-quality releases.
- Applied **Agile** and **Scrum** methodologies to streamline testing activities, maintain sprint-level test documentation, and deliver clear test summaries, risk assessments, and release readiness reports.
- Maintained a 90%+ on-time task completion rate by actively tracking test progress, dependencies, and risks across multiple workstreams using Redmine tool.
- Provided technical mentoring and QA leadership to junior testers, strengthening testing standards, improving test coverage, and enhancing overall team performance.

Senior Engineer | TATA ELXSI, India

Nov 2018 - Oct 2022

- Reviewed and executed 300+ test cases, performed functional and regression testing, conducted root cause analysis, and managed the full **defect life cycle**, achieving a 95% on-time defect resolution rate.
- Collaborated with cross-functional teams to analyze product features and business requirements, improving requirement coverage, traceability and ensuring functional compliance across releases.
- Logged, tracked, and prioritized 200+ defects in **JIRA**, contributing to a 40% faster debugging turnaround and enhanced software stability.
- Actively participated in **Agile** development processes, including daily stand-ups, sprint planning, and retrospectives, coordinating and prioritizing testing activities to meet project deadlines and boost customer satisfaction.

EDUCATION

B.TECH in Engineering

June 2014 - June 2018

Electronics and Communications, Kerala University, India

ADDITIONAL INFORMATION

- **Languages:** English, Malayalam, Hindi.
- **Certifications:** ISTQB Certified Tester-Foundation Level
- **Awards/Activities:** Breakthrough Achievement Award in recognition for excellent performance, continuous learning and improvement, BRAVO Award for delivery excellence and achieving ASPICE level 3 for customer project of TATA ELXSI
- **Notice period:** 1 month
- **Visa status:** Spouse Visa
