

UAE Selfdrive Car Rental App – User Workflow

1. App Download & Registration

- Download the App from the Play Store or App Store.
- Sign Up/Login using email, phone number, or social login.
- Verify identity (OTP verification may be required).

2. Enter Rental Details

- Choose Location: Select pickup location (Dubai, Abu Dhabi, etc.).
- Select Dates & Duration: Choose start and end date for the rental.
- Choose Car Type: Filter by economy, SUV, luxury, electric, etc.

3. Browse Available Vehicles

- View vehicle options, prices per day/week/month.
- View car details: model, seating, transmission, fuel type, features.
- Compare pricing and mileage limits.

4. Upload Documents

- Upload driving license, Emirates ID/passport, and residency visa (if required).
- Submit documents for quick verification.

5. Make a Booking

- Select preferred car and rental plan.
- Add delivery address or opt for pickup.
- Choose add-ons like insurance, child seat, or additional driver.
- Review total price, including VAT and security deposit.

6. Payment

- Pay via credit/debit card or wallet.
- Security deposit is held (refunded post-return).

7. Car Delivery / Pickup

- Vehicle is delivered to your location or made available for pickup.
- Do a quick inspection with photos via the app.

8. During the Rental

- Access car info and support via app.
- View rental timer, fuel level, and roadside assistance.
- Get notifications for return date, extensions, or traffic fines.

9. Return or Extend

- Schedule car pickup or return it to a drop-off location.
- Option to extend rental from within the app.
- Final inspection and mileage check is done.

10. Security Deposit Refund

- After return, any damages or fines are assessed.
- Security deposit is refunded within 7–21 working days.
